In 1898 the estimated population of it was impossible for anyone to state that the proposition of the Medical Officer of Health. Mr. Osbonneithought it would be as well for t to be known to the public that voluntoers from the police and soldiers could not be obtained, because there seemed to be an impression abroad that they could have got as many volunteers as they wanted by paying for them, but such was not the case. They could not get the usual volunteers by paying for them, and that was the reason they called for others.

The motion was carried. THE MARKET OVERSEER AND HIS

A report of the sub-committee appointed to aguire into the complaint of the market overseer about his quarters was submitted. The sub-committee recommended the letting of the north tower for \$25 a month, and to pay this amount to the market overseer as rout allowance in lieu of quarters. On the motion of the Hon, R. D. ORMSEY

seconded by the PRESIDENT the report was ANALYST'S REPORT. In his report for the quarter ended June 30th Mr. F. Browne. Government Analyst, stated that he had examined two samples of milk, one of which was found adulterated, two of brandy

(one adulterated) one of rum, one of gin, two of whisky, one of port wine, and one of beer, the The Hon. R. O. Ormsby minuted-"Is any action taken on these reports?" Dr. CLARK said he sent the sample of milk which was found to be adulterated. He did not

the benefits of cleanliness and thus lessen the know what action was taken by the police, but work of the Authorities. Here on the other | he was debarred from taking any action against the milk seller because he shut up his shop callons to their surroundings - they prefer dirt and ran out of the room as the sample was WASHING TANKS AT TAI HANG,

The completion of the washing tunks at Tai Heng was reported.

The Secretary reported that Amoy had been declared an infected port. He also read a letter from the British Consul at Amoy, dated July 15th, which said :- "The health of the port has improved during the past week. Tho plague seems to have reached its height at the end of last and the beginning of this month, when the number of cases amounted to some 80 daily. Since then it has been gradually abating. day of July, 1899, at 3 P.M., are published for Directors and Anditors. and now there are probably only about 20 cases general information.

Further reports of the progress of bubonic plugue at Penang were submitted. For the week ended June 24th there were seven cases | Colonial Secretary's Office, and three deaths, week ended July 8th four cases and one death. A report on the further progress of the

bubonic plague at Tainan, Formosa, showed that for the period June 18th to June 26th inclusive there were 82 cases, the deaths numboring 71 and the recoveries 30. The mortality returns from Macao for the week ended July 2nd showed 62 deaths, includ ing eight from bubonic plague.

HONGKONG MORTALITY STATISTICS. The mortality statistics for Hongkong for the week ended July 1st showed a death rate of 41 6 against 50 4 for the previous week and 15 9 for the corresponding week last year. The rate for the succeeding week was 40 1, against 16 9 for the corresponding week last year, LIMEWASHING.

It was stated that 300 notices had been issued for neglecting limewashing, and that summonses had been applied for. The Board then adjourned.

BANK.

The Hougkong and Shanghai Banking Corporation has come to be regarded as the backbone of Angle Saxon commerce in the Far East; and, by those whose interests here lie, the Bank's half yearly reports are studied with eager interest. They are our commercial baro-

Subject to andit, the profits for the half year ending 30/6/99 will be divided as follows:-Dividend of £1/10/-on 80,000 shares = about \$1,225,000-Reserved, \$1,000,000.-Written off Bank Premises, \$250,000 - Added to "carried forward," \$125,000. Total profits-about \$2,590,000. Carried forward to new account \$950,000 of profits.

Including above amounts, in the last three years the H. & S. B. C. cont of current profits.

Moreover, per last printed report, to 31/12/93, and per one Chairman's speech thereon to the

sent market value. Then again, the Bank's many freehold Pr mises in the East are worth fully \$3,000,000 30/6/99, said promises, now standing at \$257.00 will probably stand at nil. These premise have been paid for partly out of working a count, and partly out of profits specially so aside. Apparently the money so set aside invested in gold.

Six and a half years ago the H. & S. B. U. reserve fund was only \$3,300,000, as again: \$11,000,000 now (after accounts are passed Moreover this increase has not been made ou of promia on the issue of new shares, but solel out of current profits. So enormous an increas of net strength in so short a time is probabl unparalleled in the reprds of any bank, an does very great credit to the managers. The the British Government fully hold this opinion is evidenced by the well-deserved knighthoo recently conferred on the head manager Si Thomas Jackson .- China Gazette.

WATERWORKS FOR CANTON.

Since 1889 various proposals have been made to introduce waterworks into the city of Canton, but have hitherto come to nothing. Another enterprising merchant named Ho Kai-sow and issued and articles of association agreed upon, and these have been submitted to the Pun. July. yu Magistrate. This official in reply remarks that if waterworks would prove a benefit the undertaking would be a good one, but in the first place the consent and co-operation of the public must be secured, so as to avoid opposition and trouble. Canton is divided into two districts as regards jurisdiction (Punyu and Namhoi) and the petitioners must likewise netition the Namhoi Magistrate. It may be inferred from the Magistrate's repl but the official wheels require greasing.

SHIPBUILDING AT SHANGHAI,

Two launches took place on the 14th July rem Messrs Boyd and Co.'s yard. One tow-best, being the second of four ordered by the Chinese Eastern Railway Co., and is of the same dimensions as the Tailienwan, the first of the contract; the other is a selfpropelling water boat for the same company of the following dimensions:-length 94ft, bin. breadth 20 feet, and depth 8 feet 9 inches. She is to be fitted with a compond non-condensing tamdem engine. She will carry 100 tons of water, and pumps have been constructed by the builders for emptying or filling the boat in an hour. A powerful hand pump will also fitted. The tow-boat was launched with steam up and a number of members of the Russian colony here attended the function .- N. C. Dails

THE RIENYANG RIOT.

The Sin Wan Poo says that the magistrate of Kienyang has been superseded on account of the recent anti-Christian riot. The magistrate in charge and the deputy sent to investigate the case have been negotiating with the British authorities agreeing to make good the damages done to buildings and pay an indemnity for the lives lost. A speedy settlement of in matter is expected.—Mercury.
